FR-FD Fiber Rack Mount Panel

FR-FD Fiber Rack Mount Panel is a fixed type fiber distribution medium, designed for fiber termination in telecommunication exchanges, power plant communication systems, networking systems, data center, equipment rooms and other fiber optic related works. Termination work quality can be easily monitored by the transparent top cover. User can identify fiber cores and respective ports without removing the cover.

Features

- Front access design provides easy fiber patching
- Flip through splice trays allows easy maintenance
- Suitable for direct patching (non splicing) fiber work
- Transparent cover allows easier fiber cores identification
- Interchangeable side bracket allows 19", 21" and 23" mounting
- Various types of adapters available
