Product Overview

FR-GT Fiber Rack Mount Panel (Slide Out)

TTECH FR-GT, a PC-ABS constructed Fiber Rack Mount Panel is light weight. Fixed with sliding track allows pulling in and out smoothly. This IP5X complied fiber rack mount panel is dust protected, making it suitable for crucial sites installations and applications.

It is designed for fiber termination in telecommunication exchanges, power plant, communication systems, networking systems, data center, equipment rooms and other fiber optic related works.

Features

- Front access design provides easy fiber patching
- Flip through splice trays allows easy maintenance
- Slide out design for easy acess during maintenance
- Interchangeable side bracket alllows 19", 21" and 23" mounting.
- Various types of adapters available
- Light weight
- Dust protected (SIRIM approved)

FIBER OPTIC

Specification

Dimension :	12 Port	W : 435mm x H : 44mm x D : 300 mm
	24 Port	W : 435mm x H : 44mm x D : 300 mm
	36 Port	W : 435mm x H : 88mm x D : 300 mm
	48 Port	W : 435mm x H : 88mm x D : 300 mm
Material	Mild Steel	
Finishing	Epoxy powder coating	
Colour	Black and customized colours
