

Optic Power Meter

TTOM-1807 power meter is quite essential device both to construction and maintenance in optic fiber communication, CATV and FTTH.

Features

- Portable design
- FC/PC adapter (SC/ST customized)
- High quality measuring
- 1000 data storage
- Available for SM & MM fibers
- Low power consumption, 200 hrs working
- Available for FTTH optic power test

Specifications

Type	TTOM-1807A	TTOM-1807C
Detector	InGaAs	
Interface	FC/PC (Optional SC、ST)	
Measurement Range	-50~+26 dB	-70~+10 dB
Measurement Wavelength	850/1300/1310/1490/1550/1650 nm	
Precision	$\pm 0.01\text{dB}$	
Resolution	0.01dBm	
Storage	1000	
Power	Three AA Batteries	
Working Time	>200 hrs	
Volume	155×76×38 mm	
Standard Accessories	3 AA Batteries; Carrying Bag; Manual
